147航空維修學士學位學程

Bachelor's Program for 147 Aviation Maintenance

虎科大航空維修訓練中心為全臺首座經交通部民用航空局核准設立之B1類航空器維修基礎訓練與檢定機構。課程採模組化設計及完整2,400小時實務訓練，培養實務操作能力與問題解決能力。在學期間即可申請參加B1類航空器維修工程師學科檢定考試，為取得專業證照預作準備。

The Aviation Maintenance Training Center (AMTC) at NFU is the first CAA-approved B1 basic training and examination institute in Taiwan. The program features a modular curriculum & 2,400 hours of hands-on training, designed to strengthen students' practical skills and problem-solving abilities. Students will complete the required training to take the B1 Aircraft Maintenance Engineer exam before graduation.

學生心得 Students' Experience

龍安旺 Aswin Andika Putra

財務金融系碩士班 Master's Program in Dept. of Finance

Studying at NFU has been an incredibly rewarding and transformative experience for me. From day one, I was warmly welcomed by the local Taiwanese friends and teachers while being immersed in its rich, vibrant culture. On the academic front, the professors and lecturers have been exceptionally supportive in guiding my research journey. NFU also provides a rich and encouraging environment to improve my Chinese language skills through both formal learning and everyday interactions. Overall, for international students looking for a meaningful and life-changing adventure, I wholeheartedly recommend choosing NFU.

皇國風 Hoang Quoc Phong

企業管理系經營管理碩士班 Master's Program in Dept. of Business Administration

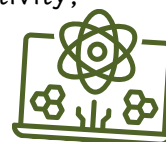

When I first came to NFU, I just thought, “讀書而已嘛～” But turns out... it's been way more exciting than expected! I joined language exchange with local students and got to practice my 中文 in real life, not just from textbooks (like, who knew “擺爛” would be the word I used the most?). Somehow I ended up joining contests too. I won the English Presentation Contest two years straight, and even made a video that grabbed 2nd place in a school-wide competition. Oh, and ELTA? Teaching English to adorable 小朋友 every week. It's chaotic, sweet, and probably the highlight of my week. NFU isn't just a school. It's a mix of 勇氣, creativity, and 生活 skills I never expected. You don't just study here, you GROW!

舒恩頤 Su Thitsar

資訊工程系碩士班 Master's Program in Computer Science & Information Eng.

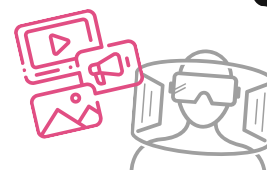

I have been studying at NFU for one year, and it has been a wonderful experience. Most of the people are very welcoming, which makes me feel peaceful and comfortable even though I am only one Myanmar student in here. The university provides modern facilities that support our learning. Moreover, NFU also arranges int'l exchange sessions where we can connect with students from different countries and share our cultures. As a foreign student, I receive support to learn the Chinese language and explore other activities. Studying at NFU has helped me to grow both academically and socially. I believe NFU can carry a bright future for all students.

宋泰隆 Talal Mohammed Ali Bin Snkar

航空與電子科技碩士班 Master's Program in Dept. of Aeronautical Engineering

Studying at National Formosa University has been a transformative journey. As an international student in the Aeronautical Engineering department, I've had the opportunity to engage in hands-on projects, advanced simulation work, and collaborate with passionate professors and peers. NFU fosters both academic excellence and personal growth, providing a supportive environment that encourages innovation and critical thinking. Beyond the classroom, I've built lasting friendships and explored Taiwan's rich culture. My experience here has prepared me not only as an engineer but also as a global citizen ready to take on future challenges.

吳佩嫻

多媒體設計系 Dept. of Multimedia Design

作為在虎尾科大唯一的印尼僑生，這兩年半以來我沒有可以依靠的印尼同伴——但這反而成為一個可以學習獨立的好機會。最重要的好處，就是我不得不說中文和學中文。無形之中，我的中文能力也逐漸進步了。當然，一開始我也很害怕，因為我幾乎不會說中文。但很幸運的是我需要的時候有朋友和老師願意幫助我。所以，如果你喜歡挑戰、想學會獨立，又希望能快速提升中文能力，歡迎來到虎科大！

本校特色與榮譽 Features & Achievements

卓越的技職教育典範 | Excellence in Technical and Vocational Education

國立虎尾科技大學創立於1980年，現已躋身全國頂尖五大科技大學之列，以卓越的教育品質和前瞻性研究聞名，在技職教育領域樹立傑出的典範。

National Formosa University (NFU), established in 1980, has become one of Taiwan's top five technology universities. The university is renowned for its exceptional educational quality and cutting-edge research, setting outstanding standards in technical and vocational education.

核心專業領域 | Core Areas of Expertise

本校專精於多項關鍵技術領域，包括：機械工程、航空工程、機械工程、智慧機械、智慧製造、工業管理、光電科技、材料科學、綠色能源、航空維修等。

NFU specializes in several key technological fields, including: Mechanical Engineering, Aeronautical Engineering, Smart Machinery, Intelligent Manufacturing, Industrial Management, Optoelectronic Technology, Materials Science, Green Energy, Aviation Maintenance, etc.

完整的學術架構 | Comprehensive Academic Structure

本校現設有4個學院、20個系所、19個碩士學位學程、3個博士學位學程，提供完整的學術培育體系，確保學生能在各自專業領域獲得深度學習與研究機會。

NFU comprises 4 colleges, 20 departments, 18 Master's Degree Programs, and 3 Doctoral Degree Programs, offering a comprehensive academic system and ensuring students receive in-depth learning and research opportunities in their respective professional fields.

國際化發展策略 | International Development Strategy

本校積極推動國際發展，與世界各大學建立合作關係，項目涵蓋：雙聯學制、交換計畫、聯合研究等。

NFU actively promotes international development, establishing partnerships with prestigious universities worldwide. International collaboration initiatives encompass: Dual Degree Programs, Student Exchange Programs, International Joint Research, etc.

卓越聲譽與影響力 | Outstanding Reputation and Impact

- 優秀師資陣容 Distinguished Faculty
 - 匯聚各領域專業教授與研究人員
 - Bringing together professional professors and researchers from various fields.
- 卓越教學品質 Exceptional Teaching Quality
 - 創新教學方法，培育實務與理論並重的人才
 - Innovative teaching methods that cultivate talent with equal emphasis on practice and theory.
- 完善學生輔導 Comprehensive Student Guidance
 - 提供全方位學習支援與生涯規劃
 - Providing comprehensive learning support and career planning
- 突出研究成果 Outstanding Research Achievements
 - 在各專業領域產出高水準學術研究
 - Producing high-level academic research across various professional fields
- 深度產學合作 Robust Industry-Academia Collaboration
 - 與業界建立密切夥伴關係，促進技術轉移與人才培育
 - Establishing close partnerships with industry to promote technology transfer and talent development
